

GMU MSCS Online

GMU offers the Master of Science in Computer Science degree online. The course offerings focus mostly in the Systems and Networks area.

This is an extension of our regular MSCS, using the Internet course delivery we have pioneered over the past few years, at no extra cost to the student. The same courses can be taken either online or on campus. Exams, project and thesis are administered on campus except by special arrangement with the instructor.

We intend to offer at a minimum the following courses, sufficient to complete the MSCS, over the next four years. Other courses may be added, and some of these may be offered more frequently. Low-enrollment sections may be offered asynchronously, in order to preserve the student's option while maintaining efficient use of teaching faculty. In addition, we anticipate providing selected courses asynchronously during summers, as we did in 2006 and 2007; availability for Summer 2008 is expected to be announced in January, 2008.

Course	Fall 2006	Spring 2007	Fall 2007	Spring 2008	Fall 2008	Spring 2009	Fall 2009	Spring 2010
CS540	X	X		X		X		X
