CSE 516A: Multi-Agent Systems

Introductory Lecture
Prof. Sanmay Das

Plan for today

Welcome & introductions

What is this class about?

Class logistics

What is this course?

<u>Multi-agent system</u>: a system where multiple autonomous entities with different information sets and goals interact.

Let's see some examples of the kinds of things we're going to study

school** rankings to find the best research program for you.

Sponsored Search Auctions

Each sponsored search listing occupies a slot

Advertisers pay per-click

Google's problem: how to allocate slots

Advertiser's problem: how much to bid for a click

Key idea: must reason about the actions of other (intelligent) agents

Aside: Why does Google clearly delineate sponsored results?

Reasoning about others

Can I get two volunteers to play a game?

B's action

A's Action	Cooperate	Defect
Cooperate	1 year, 1 year	3 years, Free
Defect	Free, 3 years	2 years, 2 years

Time in prison for A, B

Golden Balls 1   Golden Balls 2

A medical career starts with finding the program that best fits your needs. With *U.S. New*
research, narrow your search by location, tuition, school size, and test scores.

▶ **For full rankings, MCAT scores, and student debt data, sign up for the U.S. News**

Research rank	School name	Tuition	Total medical school enrollment
#1	**Harvard University** Boston, MA	$49,875 (full-time)	700
#2	**Stanford University** Stanford, CA	$47,343 (full-time)	461
#3	**Johns Hopkins University** Baltimore, MD	$44,100 (full-time)	479
#4	**University of California—San Francisco** San Francisco, CA	$31,134 (in-state, full-time); $43,379 (full-time) (out-of-state)	648
#4	**University of Pennsylvania (Perelman)** Philadelphia, PA	$47,090 (full-time)	646
#6	**Washington University in St. Louis** St. Louis, MO	$52,020 (full-time)	478

Incentives in voting

Polling for "top medical school"

3 candidates: Harvard, UCSF, JHU, WUSTL

Method: Rank candidates, assign 3,2,1,0 points

Person 1: Harvard > UCSF > WUSTL > JHU

You think: WUSTL > Harvard > UCSF > JHU

What would you do?

What happens when you graduate?

Apply to residencies

Alice	WUSTL > UCSF > Harvard	**WUSTL**	Chris > Alice > Bob
Bob	WUSTL > Harvard > UCSF	**UCSF**	Alice > Chris > Bob
Chris	Harvard > WUSTL > UCSF	**Harvard**	Alice > Chris > Bob

Suppose we match (Alice, UCSF), (Bob, WUSTL), (Chris, Harvard)?
Alice and WUSTL would rather be together than with their assigned matches: **unstable**
What about: (Alice, WUSTL), (Bob, UCSF), (Chris, Harvard) ?

See also: Medical education and List of medical schools

A **medical school** is a tertiary educational institution—or part of such an institution—that teaches medicine, and awards a professional degree for physicians and surgeons. Such degrees include the Doctor of Medicine (MD), Doctor of Osteopathic Medicine (DO), or Bachelor of Medicine, Bachelor of Surgery (BMBS, MBBS, MBChB). Many medical schools offer additional degrees, such as a Doctor of Philosophy, Master's degree, a physician assistant program, or other post-secondary education.

Medical schools can also employ medical researchers and operate hospitals. The entry criteria, structure, teaching methodology, and nature of medical programs offered at medical schools vary considerably around the world. Medical schools are often highly competitive, using standardized entrance examinations to narrow the selection criteria for candidates.
